

ABSTRACT OF THE DISCLOSURE

- 2 A bag/bed assembly comprising a first layer, which first layer receives and
9 stores a second layer, and a third layer housed entirely within the second
layer. Said first layer, when storing said second layer, serves as a seating
apparatus. When you remove the second layer from the first layer, the
second layer, is spaced out in a fully open position, having a substantially
1 rectangular configuration that serves as a ^{portable} ~~portable~~ bed.
